## Program Analysis

### Program Goals

Improve the educational system in the State by alleviating the financial worries of the teachers by offering adequate retirement benefits, disability benefits and survivor benefits.

### Program Objectives

1. To provide maximum benefits consistent with maintaining the actuarial soundness of the system.
2. To increase efficiency through the use of modern management techniques and data processing; thereby offering improved services while minimizing cost increases.
3. To be available at all times to discuss the retirement program and to offer our assistance to the members of the Teachers' Retirement System.

## Evaluation

1. Conducted an actuarial valuation of the system to determine the position of the fund, the normal cost, and the unfunded liability based on present and prospective assets and liabilities of the system.
2. Computerized application of retired member accounts will generate over 3500 year end reports that were formerly prepared by manual operation.
3. (a) Prepared over 1200 estimates and provided individual counseling to over 500 teachers.
4. (b) Advised 137 members who had a vested right and who were no longer teaching of the early retirement provision. Of this group 49 submitted applications for retirement.
